Dear Ms. Hurtz,

I am writing this letter to inform you how completely impressed I am with the professionalism and dedication of the attorneys and staff at Whyte, Hirschboeck, Dudek. I was recently involved with a federal civil rights lawsuit involving an allegation of unreasonable use of force. Being the Chief of Police I was extremely uncomfortable and anxious about being a defendant in a lawsuit. In my profession we are accustomed to being on the "other side of the table."

Our attorneys were Nathan Fishbach, Barbara Zabawa and Charles Bohl. They provided an aggressive defense and displayed a devotion to obtaining a just result.

They were extremely accommodating to the extraordinary schedules of police officers. They scheduled meetings with us in the evening and on weekends during our duty hours.

I would also like to thank Brian Knee, Claims Litigation Monitor, for permitting defense counsel to devote substantial time to this matter. Our attorneys clearly had the support necessary to put on a brilliant defense of two officers who made a reasonable decision under an extremely high risk incident.
